The authors want to make the following corrections to this paper^[1].

In the section “Intracellular trafficking of EVs”, the citations after the sentence “Using another cell-free assay, Morandi *et al.* provided interesting insights into the process of endosomal fusion in EV cargo release” and “Murphy *et al.* tackled this question by comparing an FDA-approved cutting-edge lipid nanoparticle (LNP) formulation with EVs in terms of uptake and cargo (specifically grRNA) delivery” were missed.

Correctly modify as follows:

Using another cell-free assay, Morandi *et al.* provided interesting insights into the process of endosomal fusion in EV cargo release^[22,68,87].

Murphy *et al.* tackled this question by comparing an FDA-approved cutting-edge lipid nanoparticle (LNP) formulation with EVs in terms of uptake and cargo (specifically grRNA) delivery^[135]. Corresponding
